I am a Web Developer with over 2 years of experience in mastering modern technologies for website development. Proficient in HTML, CSS, JavaScript, and MySQL, with expertise in Laravel, CodeIgniter, and WordPress. Experienced in SEO, plugins, and themes, with strong problem-solving skills and the ability to collaborate effectively in a team. Additionally, I am skilled in using Scrum/Agile tools such as Jira and Google Sheets for project management and team collaboration.

Given my expertise in website development, I am now seeking opportunities to further develop and apply my skills to real-world problem-solving. Specifically, I am interested in pursuing a career in the IT field where I can contribute to the development of innovative solutions that can make a meaningful impact on society. I am confident that my technical skills, coupled with my ability to work collaboratively with others, will enable me to succeed in this field and make significant contributions to the industry.
